Dear Proshanta,

Let us build a review-master-data file. Could you please generate a
report in CSV format with the following fields?

ReviewId
CreatedOn
LastUpdatedOn
ElapsedTime (LastUpdatedOn minus CreatedOn)
NumberOfPatches
Project
Branch
SubmitType
Status
Number of approvals
Net approval score (Sum of Approval.ReviewedStatus field)
Average approval score (Net approval score divided by number of approvals)
Number of comments
Date of first comment
Date of last comment
Comment span (Date of last comment minus Date of first comment)
OwnerId
Number of total reviews owned by owner
Number of total approvals given by owner
Number of comments by owner on this review
Number of total comments by owner across all reviews
Number of reviews of owner which have a status = "merged"
What is the average approval score of the owner (Sum of total approval
score divided by total number of approvals given by the owner)

Let me know if you have any questions.

Regards,

Subhajit
